According to the Bulgarian newspaper Capital the Bulgarian authorities are tightening the antivirus restrictions in the country due to the increase in the number of patients: tourists will need a "green certificate" to be accommodated in hotels (Certificate in Bulgarian or English, indicating complete vaccination against COVID with a drug approved in Bulgaria) or PCR test.

These requirements make it very difficult for athletes from Asia, Africa to participate in the World Championships and the International Karate Tournament.

Thereupon it has been decided to postpone the competition presumably from the end of February to the beginning of March 2022.

The venue and dates will be announced.

President IASKF

Ramil Gabbasov
